## Projects highlights

### **SNCF - elearning course creation**

March 2013

Creation of elearning modules for the IT department of SNCF, the French national railroads company. I use the existing face-to-face training supports to engineer and create multimedia courses with Articulate that we put after on a Moodle platform accessible by around 3000 people in the company.

<http://www.sncf.com>

### **Le Rize - Villeurbanne website, evolutions and improvements**

January 2013

I worked on the website of this place dedicated to culture and managed by the city of Villeurbanne: adding functionalities, improving ergonomics, rebuilding the website back-office (Wordpress), training to the new tool and creation of a newsletter.

<http://lerize.villeurbanne.fr>

### **Axel'One Communication**

January 2012

I created the communication and digital communication for the Axel'One project, a research collaborative platform for chemistry-environment in Lyon: from the complete bilingual website to flyers and commercial brochures to visit cards, social networks or newsletters... Everything needed to be built to promote this new platform aimed to boost scientific research in the region.

<http://www.axel-one.com>

### **Rhodia Intranet**

July 2011

I participated in the restructuration and redesign of the intranet of Rhodia's Research Center in Lyon as the project manager assistant. The system used was Tridion, we had to restructurate the contents and the sections, organize user tests, prepare meetings and contributors trainings.

### **ECPAT France elearning platform**

September 2010

I was in charge of the creation of elearning materials for this association which fight to eradicate child prostitution and pornography. I set up the online course platform with Moodle and I created the multimedia courses and the evaluations.

<http://ecpat.petitfute.com>

### **UNHCR elearning project**

February 2009

I took part in the UN's refugee agency's elearning project: design of elearning platforms and creation of interactive courses on UNHCR's IT systems.
